

DOCUMENT WHAT MATTERS

Accurate and Deep Discovery
Up-to-date configuration data
Retrieve and track changes to system configurations

Assessments of system configuration state
Exportable metrics and lists

- Domain Name
- Domain Mode
- Primary Domain Controller
- Domain Controllers
- Member Servers
- Organizational Units
- Site / Subnets
- Privileged Users (Admins, Domain Admins, Enterprise Admins)
- Other Key User Accounts
- Total Computers
- Total Domain Shared Printers
- Password Complexity Requirement
- Account Lockout Threshold
- Account Lockout Duration (hours)

- Domain Name
- Domain Registrar
- Domain Expires On
- Domain Registrant Contact
- Domain Admin Contact
- Domain Technical Contact
- DNS Hosting Vendor
- Domain Name Servers
- DNS A & CNAME Records
- DNS Protection (DNSSEC) Enabled & Configuration
- Website Associated
- Website URL(s)
- Website Hosting Vendor(s)
- Website has TLS/SSL
- Email Associated

- Total Active Domains
- Subscriptions
- Billing details

- Email Domain (Default)
- Email Domain (Initial)
- Subscription Details
- Total Active Users
- Total Licensed Users
- Total Unused Licenses
- Total Disabled Users
- Total Active Devices
- Total Disabled Devices
- Other Licenses (ProPlus, Visio, etc.)
- Directory/Password Sync Enabled
- Directory Sync Service Account
- Directory Sync Client Version
- Directory Sync Client Machine Name
- Directory Sync Application Type
- Details of Skype, SharePoint, etc.

EMAIL

- Email In Use
- Email - MX (Mail Records)
- Email Hosting Vendors
- Approved Email Senders (SPF) & Configuration
- Domain-based Message Auth (DMARC) Enabled & Configuration

- Common Name
- Issuer Name
- Expiration Date
- Alternative Names
- Certificate Matches Domain (Y/N)
- Signature Algorithm
- Public Key Algorithm
- Key Size
- Protocols Supported
- Last Vulnerability Scan

- Server Name
- Physical or Virtual
- Operating System
- Version
- Architecture
- Service Pack Major Number
- Install Date
- Hardware Manufacturer
- Last Bootup Time
- Number Of Users
- Number Of Licensed Users/CALs
- Number Of Processors
- Build Type (File Server, App, etc.)
- Disk Encryption
- Anti-Virus Installed
- Local Accounts
- Security Patch Level
- Host Machine if Virtual

- SQL Server Machine Name
- SQL Server Instance Name
- SQL Server Machine OS
- SQL Server Version & Edition
- List of User Databases
- List of Dependent Application
- Default Data Path
- Default T-Log Path
- Authentication Method
- Backup Jobs & Location
- Maintenance Plans
- Is Clustering Enabled
- System Admin Users
- SQL Server Licensing Details
- SQL Server CALs v. Total Users

- Services in Use
- Virtual Machines
- Virtual Networks
- Users
- Security Groups
- Resource Groups
- Virtual Disks
- Virtual Networks
- Network Security Policies
- Routing & Network Details
- Web Apps
- Network Interfaces
- Public IPs
- Azure AD Details
- Billing Details

- Services in Use
- EC2 Instances
- VPCs
- Subnets
- Security Groups
- IAM Users
- IAM Users with API Keys
- Total API Keys
- Region
- Is Root MFA Enabled?
- Is Root API Key Deleted?
- S3 Buckets
- Publicly Accessible S3 Buckets
- Regions & Availability Zones
- Billing Details
- Subnets

OTHER

- File Sharing Platform
- Endpoint Device Warranties
- Critical Business Apps & Owners
- Vendor Contacts

BACKUP

- Backup Product Vendor
- Hosting Vendor
- Retention Policy
- Off-site Replication Time

INTERNET CONNECTIONS

- Carrier
- Failover Carrier
- Circuit IDs
- IP Blocks
- Subnet Mask
- Gateway IP
- Up/Down Bandwidth
- Reverse DNS Records

FIREWALLS

- Host Name
- Manufacturer
- Model Number
- Version / Firmware
- Serial Number
- Last Config Modification
- Processor
- Memory
- Physical or Virtual
- License
- License Expiration Date
- Total Firewalls
- Firewall Rules
- Site-to-Site VPNs
- Warranty Details
- IDS/IPS
- Content Filtering Service
- WAF - Web App Firewall
- Web Proxy
- Anti-Spam
- Anti-Virus
- DNS Server
- DHCP Server
- DHCPv6 Server

NETWORK ROUTERS

- Host Name
- Manufacturer
- Model Number
- Version / Firmware
- Serial Number
- Physical Location
- Last Configuration Modification
- Processor
- Memory
- License
- License Status
- License Expiration
- Admin Users
- WAN IP(s)
- DNS Settings
- Interface Speed & Duplex Settings
- NAT Policies
- Warranty Details

NETWORK SWITCHES

- Host Name
- Manufacturer
- Model Number
- Version / Firmware
- Serial Number
- Physical Location
- Last Configuration Modification
- Processor
- Memory
- License
- License Expiration
- Admin Users
- Count of Networks
- Management IP
- DNS Settings
- Interface Speed & Duplex Settings
- Total Switches
- Total VLANs
- SNMP Settings
- Warranty Details

OTHER NETWORK DETAILS

- CISCO MERAKI**
- Organization Name
- Organization ID
- Networks

CISCO ASA

- Device Manager Version
- Firepower eXtensible OS (FXOS)
- Running Matches Startup Config

SONICWALL

- Is Using GMS
- Configuration Backups Enabled

ACCESS POINTS

- Manufacturer
- Model Number
- Version / Firmware
- Serial Number
- Physical Location
- License
- License Status
- License Expiration
- Total WAPs
- SSIDs
- Count of SSIDs
- Auth Types
- 2.5GHz or 5GHz
